

Thank you, Satya...

Satya

Thanks so much for your very generous comments. I do remember those early days when we talked about entrepreneurship in its various facets and sometimes about Career Launcher in particular. For my part I have seen a continuous and consistent commitment to institution building and a long term perspective on the part of you and your team. In our many conversations you always aspired to be like some of your heroes

In Indian entrepreneurship. It has provided CLE with the moral and ethical underpinning which sets it apart from much of Indian industry.

As indicated in my mail to you, I have thoroughly enjoyed my time on the Board . There is nothing more important to a Board member than a management team which values his or her inputs and a mutual collegiality with other Board members with everyone feeling empowered to express their views freely. That has been my experience with the CLE Board over the years . For that I thank you and all my fellow Board members.

On this ,my last day as a director, I wish you , your team and all my fellow Board members all the very best as you build the long term organization which we talked about in those early years .

Best
Sridar
